

AT&T Business Trade-in[®]

National Promotions Program

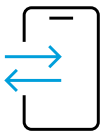

AT&T offers a straightforward way for our customers to get value from their old devices when it's time to upgrade.

Opt-in for the trade-in promotion after you choose your new device.

Describe your old device, including IMEI, the phone number and answer a few questions about its condition.

Transfer data from your old device to the new one. Maximize your trade-in by disabling "Find My iPhone" / "Find My Mobile" (Android) and by removing any MDM software.

Ship your old device to us within 30 days of activating your new device in the free pre-paid shipping materials we provide you.

If you qualify for Expedited Promotional Credits (EPC), the credit will be applied as soon as the old device is shipped. If no EPC, credits are applied within 3 billing cycles.

We are committed to responsible electronics recycling practices and have a zero-landfill policy where we aim to divert nearly all waste away from landfills. A certificate of destruction and erasure for your old devices is available upon request. If you are interested in learning more about the AT&T Business Trade-in[®] program, please call 1-800-331-0500.
